Why Ecobox Bulk Merchandising display solutions?

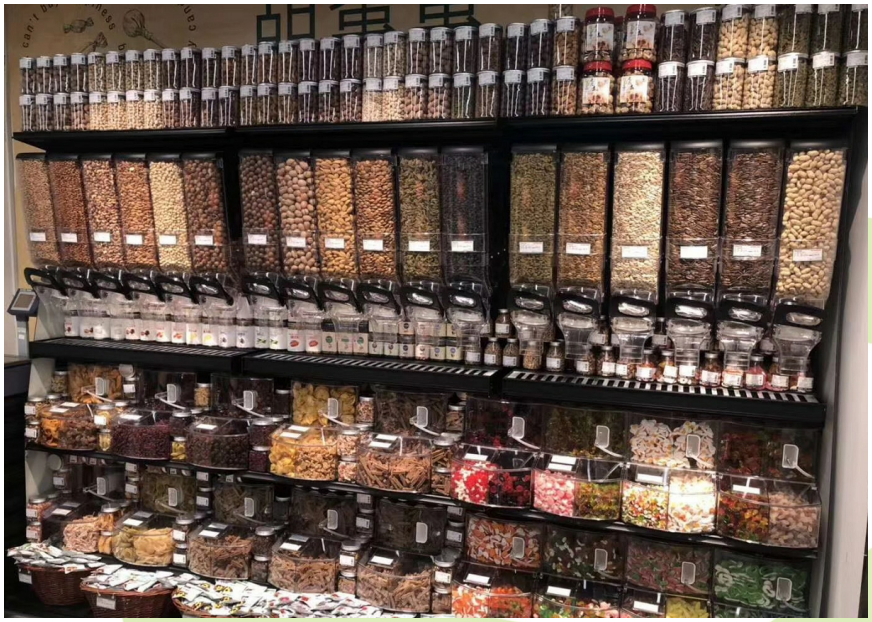

Ecobox Bulk Merchandising System

1. Traditional retail V.S. Ecobox bulk displays

Traditional

Ecobox bulk displays

Why Ecobox?

1. Highlight the characteristics of core or key products, more eye-catching;
2. See products clearly, you know what you are going to buy clearly;
3. Emphasize individuality and avoid similarities displays。
4. In the display of bulk products, the uniqueness and innovation is precisely to comply with the customers' pursuit of personalized psychology, distinctive personalized style, unique design ideas can be refreshing and unforgettable。

2. Zerowaste and healthy

With the increasingly seriously ecological environment, people's awareness of environmental protection has been gradually improved. Lots of Zerowaste shops have been come to our life these 2 years. Their goals are: Zero packaged, zerowaste grocery shop。What is zero packaged? It means all products in the shop are “unpackaged”. Especially after the trial run of Shanghai gabbage sorting, it became a trend to preotect the world at the very beginning of zerowaste packaging.

The food waste,in the final analysis, it is unrestrained and unplanned request from foods. In the meantime,people never consider the actual needs of the foods or they can not only request the foods they want. Food waste appears obviously when people take more than needed.The harm to environment of the food waste is obvious. However, the bulk foods play a import role in reducing food waste.As for the bulk foods, people can only take the foods they want. By doing that, we can reducing food waste effectively.

These are the reasons why Ecobox shows up!
